

Technical Data Particle Generator ILA TEC12:

Air Atomizer principal: multiple Laskin nozzles in x-configuration (two layers);
Performance: 12 individual air jets with according liquid holes in metric fittings, max. 7 Nm³/h;
Regulation: 2 individual mass flow valves and 1 pressure control valve;
Inlets: half inch and quarter inch;
Outlets: 3/4 inch; Ejection air bypass with control valve to adjust isokinetic flow ejection;
Calibrated pressure range for vegetable oil and DEHS
